-

PROJECT EXPERIENCE

Photography Portfolio Website

Frontend Developer – Personal Project

- Designed and developed a responsive portfolio website to showcase creative work and personal branding.
- Implemented mobile-first layouts with consistent spacing, typography, and visual hierarchy.
- Built structured multi-section pages (Hero, About, Services, Gallery, Contact) to improve content flow and usability.
- Applied reusable UI components to maintain consistency and scalability.
- Optimized images and layouts for performance and cross-device compatibility.
- Deployed the project using modern frontend tooling and version control.

Technologies: HTML, CSS, JavaScript, Responsive Design, UI/UX Principles

Dental Clinic Booking Website (Frontend)

Frontend Developer – Personal Project

- Developed a professional clinic website focused on clear patient interaction and booking flow.
- Designed a structured consultation and appointment journey to guide users toward form submission.
- Built responsive layouts optimized for readability, accessibility, and mobile use.
- Implemented form UI components with clear labels and validation-ready structure.
- Organized the codebase using reusable React components and consistent styling conventions.
- Designed the frontend architecture with future backend and API integration in mind.

Technologies: React, TypeScript, Tailwind CSS, Form UI, Component-Based Architecture

Front-End Developer – Personal Project

 Live Demo: <https://sailingcafe.vercel.app>

- Designed and developed a **high-end, modern café website** focused on branding, storytelling, and user experience.
- Built a visually rich hero section and product highlights to reflect a premium coffee brand identity.
- Implemented **responsive layouts** optimized for desktop, tablet, and mobile devices.

- Applied **UI/UX best practices** including spacing, typography hierarchy, and clear call-to-action placement.
- Structured the application using **reusable React components** for maintainability and scalability.
- Deployed the project using **GitHub and Vercel**, managing builds and production-ready deployment.

Technologies: React, TypeScript, Tailwind CSS, Vite, UI/UX Design, Responsive Web Design, Vercel

EXPERIENCE

Frontend Development (Project-Based Experience)

- 2+ years of continuous learning and hands-on frontend development through personal and academic projects
 - Experience working with modern frontend workflows, version control, and deployment platforms
-

SOFT SKILLS

- Problem-solving
 - Attention to detail
 - Time management
 - Willingness to learn and accept feedback
 - Team collaboration
-

CERTIFICATIONS

- **Data Analytics** – Cisco
-

INTERESTS

- Web Design & UI Animation
- Learning new frontend technologies
- Building creative and functional websites
