PROFILE

Motivated Information Technology student and aspiring Front-End Web Developer with hands-on experience building responsive and modern web applications. Passionate about clean UI design, smooth user experiences, and continuously learning new web technologies.

EDUCATION

Bachelor of Science in Information Technology
Laguna State Polytechnic University (LSPU)
Currently Studying

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), TypeScript
 - **Frameworks & Libraries:** React, Vite, Tailwind CSS, Framer Motion
 - **Backend (Basic):** Node.js, Express
 - **Tools:** Git, GitHub, Vercel, Postman, Figma
 - **Other:** Responsive Design, UI/UX Principles, REST APIs
-

PROJECT EXPERIENCE

Photography Portfolio Website
Frontend Developer (Personal Project)

- **Designed and built a clean, responsive portfolio website to showcase creative work, services, and personal branding.**
- **Implemented mobile-first layouts with consistent spacing, typography, and visual hierarchy for improved usability.**

- Structured multi-section pages (Hero, About, Services, Gallery, Contact) for clear content flow and discoverability.
- Applied modern UI principles and reusable components to maintain visual consistency across the site.
- Optimized images and layout for performance and cross-device compatibility.
- Deployed and maintained the site using a modern frontend workflow.

Technologies: HTML, CSS, JavaScript, Responsive Design, UI/UX Principles

Dental Clinic Booking Website (Frontend)

Frontend Developer (Personal Project)

- Developed a modern, professional clinic website focused on usability and clear patient interaction flows.
- Designed a structured consultation and booking user journey to guide users toward form submission.
- Built responsive layouts optimized for readability, accessibility, and mobile devices.
- Implemented form UI components with clear labels, validation-ready structure, and user guidance.
- Organized the application using reusable React components and consistent styling conventions.
- Designed the frontend with future backend and API integration in mind.

Technologies: React, TypeScript, Tailwind CSS, Component-Based Architecture, Form UI, Responsive Layout
